

GIDON BING

SCULPTOR

Designed and produced from a modest boatshed atelier and basement studios, Gidon Bing Ceramics are sold and collected worldwide. New York, LA, Tel Aviv, Amsterdam, Paris, Copenhagen and have featured in Selfridges of London and Milan's Salone del Mobile among others. The latest collection draws inspiration from the power and presence of reductive forms – a natural extension of Gidons sculptural practice, where a fascination with the relationship between biological asymmetry and the artefact is explored.

BIRDHOUSE

The bird house can be suspended from above, or secured from below.

GLAZE OPTIONS
